To Complete Your Submission:

Once the e-QIP has been completed, please email the Student Internship Program team at studentinternship@state.gov so that the security package can be released to DS to be processed. If this is not done, we will consider this to be a decline of the internship offer and your application will be terminated.

How the Security Clearance Investigation Process Works:

a.) Step 1 - OPS (Operations):

- Once the case is released by the Student Internship Program team to the DS/SI/PSS Operations Division, the security package will go into a queue to be reviewed to ensure it is complete and ready for investigative processing.
- If there is any documentation missing from the security package, the Intake Unit will contact the internship candidate by email.
- Once the security package is deemed complete, the Intake Unit will open the case and forward it to the Records Team. The Records Team will complete the National Agency Checks (NAC).
- Once the NACs have been completed, the case will be moved to a case manager in the Investigative Division.

b.) Step 2 - Investigations Division:

- Once a case is assigned to a case manager, the Investigative Phase begins.
- An interim determination based upon the 13 Adjudicative Guidelines below can be made during this phase. Case managers will attempt to make an interim determination within the first 14 days of receipt of the case.
- There are several field investigators working cases, including the one the internship candidate meets during the subject interview. An investigator will submit his/her report back to the case manager.
- Once the case manager has all of the information needed to make a determination, the case will be completed or forwarded to Adjudications for additional work, as needed.
- Please ensure that contact information is current, (i.e. change of residence, travel) by submitting new information to securityclearance@state.gov .

c.) Step 3 - Adjudications Division:

- Cases forwarded to Adjudications will be reviewed using the “whole person concept” to make the final determination. Once the case is closed, a DS Clearance Notification will be sent to the Student Internship Program team.

13 Adjudicative guidelines:

- (1) Guideline A: Allegiance to the United States
- (2) Guideline B: Foreign Influence
- (3) Guideline C: Foreign Preference
- (4) Guideline D: Sexual Behavior
- (5) Guideline E: Personal Conduct
- (6) Guideline F: Financial Considerations
- (7) Guideline G: Alcohol Consumption
- (8) Guideline H: Drug Involvement

- (9) Guideline I: Psychological Conditions
- (10) Guideline J: Criminal Conduct
- (11) Guideline K: Handling Protected Information
- (12) Guideline L: Outside Activities
- (13) Guideline M: Use of Information Technology Systems

To get a better understanding of what each guideline entails, please visit this [link](#).

Reciprocity and Revalidation:

a.) **Reciprocity** may apply to candidates who currently hold or have held a position with another Federal agency that requires a security clearance within the last two years.

Reciprocity is a method by which one Federal agency grants a security clearance based on an investigation completed by another Federal agency that meets investigative requirements.

The following requirements must be met for reciprocity to apply:

- Intern held an active security clearance with another Federal agency within the last two years.
- The requested clearance level is the same or lower than that for which the intern was previously deemed eligible.
- The last background investigation was completed within the last seven years for a Top Secret clearance and within the last ten years for a Secret clearance.
- No derogatory information has come to DS's attention since the last investigation occurred.

If all four requirements are met, please contact the Student Internship Program team at studentinternship@state.gov

b.) **Revalidation** applies only to candidates who have previously held a security clearance with the Department of State. Complete this form and return to [SF86C Form](#) (signed in ink) to Student Programs – studentinternship@state.gov. You do not qualify for revalidation if you held an interim SECRET or Interim TOP SECRET or Public Trust Certificate with Department of State.

The following requirements must be met for revalidation to apply:

- Intern held an active security clearance with DOS within the last two years.
- The requested clearance level is the same or lower than that which the applicant was previously granted.
- The last background investigation was completed within the past five years.
- No derogatory information has come to DS's attention since the last investigation occurred.

If all four requirements are met, please send a completed [SF86C Form](#) (signed in ink) to the Student Internship Program team at studentinternship@state.gov

Note: e-signatures on this document will not be accepted. Also, a Public Trust Certificate does not qualify as a security clearance and does not meet the requirements for reciprocity.

Frequently Asked Questions

- a.) **How long does the security clearance process take?** Unfortunately, the Department cannot provide any estimated completion dates/timelines. Each case may have its own complexities and differing circumstances which can impact overall clearance mitigation times. Please note, all intern cases are expedited.
- b.) **When the clearance process concludes, what happens when my security clearance is granted?** Student Programs is notified via an official DS Clearance Notification, which is then relayed to you along with further instructional guidance.
- c.) **What happens if my security clearance is not completed in time?** Unfortunately, this can occur. If your investigation is not completed in time, you will need to discuss with the Student Internship Program team any potential options, e.g., deferment to the following semester, later start date, etc.
- d.) **How do I obtain a copy of my e-QIP if I did not save it as a PDF originally?** It is usually best to try to save a copy before releasing the e-QIP. If you are unable to save a copy, please contact the Student Internship Program team to receive temporary access which will allow you to save and print a copy for up to 20 days.
- e.) **How do I provide additional/updated information if I have already released my e- QIP?** If you have forgotten to submit information or if it has changed since you last submitted your e-QIP, please send updates to securityclearance@state.gov . The CSC will ensure that your information is sent for review and inclusion in your security file.
- f.) **What does the e-QIP mean when it refers to foreign contacts?** Reporting Foreign National Contacts: The term “contact” means all manner of personal or impersonal communication and includes, but is not limited to, written, telephonic, electronic mail, text messaging, chat room discussion, facsimile, wire, and amateur radio. **Example:** If you were to visit the foreign country of your contact, or vice versa, would you meet up with her/him for dinner, coffee, etc.? If so, this would need to be listed as a foreign contact. DS is looking for any time of repetitive, patterned behavior and contact.
- g.) **How long is my security clearance good for?** You have up to 2 years to have your clearance (Secret and Top Secret) reactivated from the last date you are on duty. A SECRET is good for 10 years and a TOP SECRET is good for 7 years of continuous access. A non-sensitive request must be submitted every time. Keep in mind, your security clearance is tied to the position and not the person.
- h.) **How frequently should I request an update on my case?**
One month after you have asked the Student Internship Program team to release your application to DS.
